

Industrial Tyres

Industrial Fork Lift Pneumatic Tyres OB-501 SERIES

Benefits:

- Thick sidewall for impact & puncture resistance
- Rim Guard protector
- Deep tread pattern for long wear

The OB-501 series is a high quality range of industrial pneumatic tyres. With their deep tread , rim guard protection and heavy duty sidewall the OB-501 series provides a high quality industrial pneumatic tyre .

Designed to comply with ETRTO standards you can be sure the premium OB-501 range will handle the toughest of applications. Our factory quality procedures, In-House tyre test facilities and high-tech manufacturing processes ensure our OB-501 series can meet the demands of the Industrial tyre market.

Factory Registrations:

- ISO9001:2000 Quality System
- ISO14001:2004 Environmental Management System
- USA DOT Accredited
- European E-Mark
- Gulf Standard GCCC Certification
